Take Flight To Your  
Dreams, Again.  
The Launchpad Is Set!

We are all set to welcome you back.

Welcome to the  
2<sup>nd</sup> issue of 'The Creek Gazette'

for the Academic Year 2021-22. A time to pause, reflect and recuperate the academic years that passed by, with great gusto. Evidently, we opened our admissions for AY 2022-23 with such ardour. The main crux of this newsletter is to bring to you few prominent highlights of our many events and learning of our children.

This newsletter threads our campus monthly happenings, achievements and upcoming events. "The essence of education is to help you discover your uniqueness, teach you how to develop it and show you how to give it".

Wishing all the readers a Very Happy Sankranti

The **FEI MANAGEMENT** wishes you a happy and prosperous new year. It is a pleasure to share the launch of **AMBITUS KINDER WORLD**.

## CERTIFICATE OF APPRECIATION

Another Feather in our cap, as our Academic Head **Dr. Jayashree Nair** receives this prestigious award for exemplary contribution in the field of education at the New Normal Education Leadership Summit and Awards on 8th Jan 2022.

Holistic education aims to give attention to experiential learning, and places significance on "relationships and primary human values within the learning environment".

## Messages:

### FROM THE DESK OF THE SCHOOL HEAD

“Humanity is going to need a substantially new way of thinking if it is to survive.  
” Albert Einstein

With the rising game of internet, children are getting exposed to both sides of the world from an early age. They are unshielded from the glamour and also trolls the social media brings with it. They understand the love and question the hatred that is spreading throughout the world.

**“I think that a child's mind is like a blank book. During the first years of his life, much will be written on the pages. The quality of the writing will affect his life profoundly.” – Walt Disney**

Mercurians develop the feeling of being humane towards others which is the greatest value. They always have a perspective of always looking for the good in people though there are two sides like a coin.

**Ms. P. HIMAJYOTHSNA,  
Principal - TCPS (Mercury)**

## Tete - e - Tete with our Parent

**Ms. Swapna Thallapureddy,  
Parent of Mast. Rishith Reddy – II-A 1**

How does it feel to be the parent of the Star student ?

He has improved his reading and writing skills and I am happy to see his progress and he being the star student of the week.

What thoughts does he share about being at school ?

He is extremely happy to be at school. It is after a long time that the physical schooling has started and the children are much excited.

Share your opinion about the efforts put forth by the school.

The efforts taken by the school in enabling the children to take initiative on their own is good and we would like to see the same in future too.

## Voice of a Teacher

### NO POLLUTION IS THE ONLY SOLUTION

Pollution has become very common yet serious issue in today's world. It has been there for a long time even before human evolution for example volcanic eruptions and wildfire which lead to various photochemical reactions in the atmosphere the

**Ms. P. Rojarani,  
English Mentor**

current concern is that it is rising day by day due to various resources of pollutants and one of the pollutants is human and human created machines it is to say that pollution is damaging the mother earth severely and we humans should play our part to prevent it from happening.

National pollution control day is observed in India every year on 2nd December to raise awareness about the problems of increasing pollution it is celebrated to commemorate thousands of people who lost their lives in the Bhopal gas tragedy in 1984. The day marked as national pollution control day to raise awareness about air, water, soil and noise pollution and educating people on how to control and manage industrial disasters. We the citizens of our country need to take the pledge to save our environment from getting poisoned with pollution by taking these extra steps Insert your waste in dustbin Reduce the number of trips you take in your car. Reduce or eliminate fireplace and wood stove use Avoid burning leaves trash and other materials. Avoid using gas powered lawn and garden equipments. let us create more awareness on national pollution control day we should use only what we can reduce reuse and recycle save earth by protecting it from pollution

## Voice of a Student

### AN UNDERVALUED QUALITY

Humanity comes from the most selfless act, and the compassion one has. 'Don't wait for leaders, do it alone person to person' was the quote given by the great humanitarian Mother Teresa on humanity. She always conveys to not wait for the resources, but act upon opportunity by quoting that 'If you can't feed a hundred people, then feed just one.' The great Indian poet, Rabindranath Tagore, expressed his strong beliefs on humanity and religion in his Gitanjali. He believed that to have contact with the divine one has to worship humanity. Humanity was his soul religion. Their ways of life have taught us and will be teaching the future generation what it means to be a human—the act of giving back and coming to aid the ones in need. Humanity comes from the most selfless act, and the compassion one has.

### FROM THE DESK OF THE SCHOOL HEAD

Humanity is the nature of human beings; it is not about demonstrating compassion and empathy for one another in times of need, but about holding love in high respect and treating one another with kindness in all aspects of life. Humanity is a term that encompasses more than simply human compassion and civilisation; it also encompasses the frontiers of human nature and his inventions. Its all about putting hearts and minds together in all of humanity & endeavours.

It all starts at home, as the old adage goes. It pervades the roads we travel, the places we live, and the people we meet. Humanity costs nothing than understanding other humans in a HUMANE way.

**Mr. B. Srikar,**  
**Principal - TCPS (Neptune)**

#### సంస్కారం

భగవంతుడు సృష్టించిన ఈ జీవకోటిలో మానవ జన్మ ఎంతో మహిమాన్వితమైనది. అలాంటి జన్మను సార్థకత చేసుకోవాలంటే జ్ఞానం కావాలి. అట్లాంటి జ్ఞానం సంపాదించాలంటే విద్య కావాలి. ఆ విద్య సంస్కారముతో కూడినదై ఉండాలి. 'సంయుక్త కరః సంస్కారః' చదువుతో పాటుగా సంస్కారం అబ్బాలి. అలాంటి సంస్కారముండు ఎట్లాంటివారైనా తలవంచాల్సిందే. సంస్కారం అనేది ఎక్కడా దొరకదు. అది పుట్టుకతోనూ రాదు. అది బాల్యంనుండే ఎంతో ఓర్పు, నేర్పుతో అలవర్చుకోవాలి. 'అభ్యాసం కూసు విద్య' అభ్యసననేపదైనా సులభతరమవుతుంది. ప్రస్తుత సమాజంలో ఇది ఎంతో అవసరం. సంస్కారమును తల్లిదండ్రులు, గురువులు, స్నేహితుల వద్ద నేర్చుకోవాలి. అలాంటి వాతావరణాన్ని కల్పించాలి. మనిషికి చదువుతో పాటు, సంస్కార సంపద మాత్రమే ఉన్నతమైన భవితవ్యాన్ని సంపాదిస్తుంది. సంస్కారం సద్గతికి, పురోగతికి సంబంధించినది. సంస్కారంలేని చదువు వాసనలేని మోదుగ పప్పులాంటిది. కనుక బాల్యం నుండి క్రమశిక్షణను అలవాటు చేయాలి. సమయానికి నిద్రలేవటం, తమ వనులు తాము చేసుకోవటం, పెద్దవారినిగౌరవించడం, ఇతరులకు సహాయం, సహకారాలు అందించటం, ఈర్ష్య , అసూయలకు దూరంగా ఉంచటం ఇవన్నీ ఆచరిస్తూ వారిచే ఆచరింపచేయటం మన కర్తవ్యం.

### A JOURNEY OF A THOUSAND MILES BEGINS WITH A SINGLE STEP

The students of grade VII-IX were taken to an educational field trip to the BDL Defense Products Exhibition on December 15, 2021. The exhibits of Anti-Tank Guided Missiles, Surface-to-Air Missiles, Air-to-Air Missiles, Missile Launchers, Underwater Weapons, and Countermeasures fascinated the students. The exhibit has given the students of grade VII to IX thoughts about the sense of patriotism that existed throughout World War.

Many of the kids were astounded to see the diverse range of defence products on display, which represented five decades of history, present, and future.

### FROM THE DESK OF THE SCHOOL HEAD

Humanity is at the heart of what it is to be human. Though the concept appears to be easy and widely used, it is difficult to decipher and explain the essential meaning of Humanity to both children and adults. We live in a time and place when Humans are forced to live in a self-centered manner. It's possible that it's due to shifting environmental, social, economic, and health factors. As an educator, I believe we should not take it for granted and continue to blame the circumstances.

The school, in collaboration with parents, should continue to teach in the future generation the value of being "Human." We practise and foster empathy, and our team's great behaviour is made evident for our children to learn from. We also visit the less fortunate, assisting children in developing and experiencing humanity as well as learning to be grateful for what they have.

**Ms. K Shireesha,  
Principal - TCPS (Orbit)**

### Tete - e - Tete with our Parent

**Mrs & Mr. Dayanand**

**Parents of Kum. Vachanashree Swami, I-A2.**

In the previous few months, have you noticed any changes in the child?

The child's confidence, speaking skills, and conceptual understanding all improved significantly. Vachana Shree takes part in all of the school's cultural, athletic, and academic events.

What are your thoughts on your child's achievement?

We are quite proud of our child's accomplishment. We saw that the school provides a variety of possibilities for all students in the form of special assemblies, competitions, and class performances, all of which help the students build skills and confidence.

### Voice of a Teacher

**Ms. V. Prasuna Kumari  
Maths Mentor**

### BE A FRIEND TO YOUR CHILD

Every parent should provide his or her child the freedom to express himself or herself and be receptive to them. The present age is more sensitive and emotionally susceptible than previous generations, and it is our obligation to help them grow emotionally strong.

We need to pay much more attention to our children and spend more quality time with them. We need to offer a safe space for kids to express their feelings, thoughts, and emotions. It boosts children's self-esteem and helps them achieve greater results in numerous areas of their lives. It's important to strike a balance between being nice with the child and establishing boundaries and disciplining tactics.

### Attractive water bottles

children should be made to decorate their own water bottles with colourful stickers and pictures of their favourite cartoon characters, as young children love to showcase their work, they end up drinking water many times in a day.

**Kum. G Kavinaya Shri**  
VII-A1

**Earn points by drinking water:**  
Children can be encouraged to drink enough water by awarding points each time they drink a glass of water. Maximum points they can earn in a day would be 10. The class which earns maximum points in a month would be entitled for a class picnic.

**Kum. Swarali Rindhe**  
IV-A1

## Messages:

### FROM THE OF THE SCHOOL HEAD

Values are mostly learned from our surroundings. Human values are attributes that guide us toward respect, acceptance, attention, admiration, listening, openness, affection, empathy, and love for other people.

It encompasses feelings and emotions that only humans can sense and comprehend. It's possible that animals are aware of it. However, they are unable to comprehend and name it, whereas humans have had the pleasure of comprehending and naming it as a value.

With those human values, one can truly put one's ethical ideals, such as justice, integrity, and the refusal of violence and prohibition of killing, into practise - even in a crisis. Moral standards are reinforced by a positive and emotive wave conveyed by human values. They are the principles that enable us to live in peace with one another and to contribute to peace on a personal level. This is what we call humanity.

**Mr. Soumitra Singh Thakur**  
Principal - TCPS (Venus)

### Tete - e - Tete with our Parent

**Mr. Gullapalli Rajesh Kumar,**  
Parent of Kum. Nithya – VIII-A2  
in conversation with Principal Sir.

What are your thoughts on our Star Student program?

My family is ecstatic since our child has been named a "Star Student." I appreciate the principal, instructors, and the administration's efforts to help the students reach their full potential.

How has Nithya's Journey being so far ?

I want my child to participate in more extracurricular activities that will help her enhance her debate, current events, and future technology abilities. My child's performance has greatly improved since joining TCPS. I'm hoping that my child's progress continues and that she develops into a socially conscious and responsible citizen.

I constantly encourage the child and the school to participate in activities that will benefit their overall

#### शषिटाचार

शब्द शषिट और आचार दो शब्दों से मलिकर बना है। शषिटाचार शब्द बहुत ही करणप्रयि और मन को प्रफुल्लति करनेवाला है।

वदियालय में शषिटाचार को

देखकर शक्षकों के मन में आनंद की ज्योतजिल उठती है, हरदय में स्नेह के फूल खलि उठते हैं, रस के सागर उमड़ने लगते हैं। शषिटाचार शब्द एक आदर्शवादी व्यवस्था को जन्म दे सकती है, परन्तु प्रकृतिके त्रगुणात्मक स्वरुप को स्पंदति नहीं कर सकती। शषिटाचार से आपसी संबंध को मधुर बनाया जा सकता है शषिटाचार की लड़यिँ मन की कड़यिँ को जोड़ देती है और परणामतः जीवन में फुलझड़यिँ नकिलने लगती है।

**Dr. Rajiv Nayan**  
Hindi Mentor

कनितु शषिटाचार शब्द की ध्वनएक बहुत बड़े प्रश्न चनिह लेकर उठ खड़ी होती है। अगर कोई व्यक्ती अपना पूरा जीवन शषिटाचार के अनुरूप गुजार देता है तो क्या वह वैज्जानकि हो सकता है ? क्या वह दार्शनकि हो सकता है ? क्या वह राजनीतजिज हो सकता है ? क्या वह महान हो सकता है ? शषिटाचार अपने परधिके अंदर ही सुशोभति होता है।

## Voice of a Student

### OUR FUTURE IS IN OUR OWN HANDS

In commemoration of one of the deadliest disasters, the Bhopal Gas Tragedy, we celebrated 'National Pollution Control Day.' Do we comprehend that pollution levels are so high that only a small percentage of the population has access to clean air, and many people die as a result of it?

Even if we knew, what would we do? The transition to non-polluting substances may take some time, but there is plenty that can be done to mitigate the impacts. "The activist isn't who says the river is dirty but who cleans up the river.-Ross Perot. We are in charge of our own destiny and building the future

### “TIMES EDUCATION EXCELLENCE AWARDS”

School systems need to ensure that their curricula are relevant and contain enough flexibility to accommodate different learners and different social and economic needs. They need to ensure that school buildings are in good condition. All these things are essential and ultimately impact academic performance. However, none is nearly as crucial as the quality of teaching. Pedagogy and the quality of teaching go hand in hand.

Excellence Award for Best Pedagogy

The quality of teaching depends on different theories, techniques and methods implemented by schools. A great scholar Simon described pedagogy as the 'science of teaching'. The concept of teaching as science has strong roots in this tradition. The school supports teachers in improving and updating new educational policies with yearly Professional development sessions and Professional development qualifications under encouraging and well-qualified school heads. Times Education Excellence awards on best pedagogy witness the innovative techniques used in school to teach the student in all dimensions.

### FROM THE DESK OF THE SCHOOL HEAD

'Education, to be complete must be humane'. Undoubtedly, how true this line is! Education does have the ability to shape the soul and build a human being. Good character and humanity are inextricably linked, and education centres around both.

We teach our kids that "being compassionate is the need of the hour." In today's world, humanity can accomplish its goals in a variety of ways. Small acts of love and kindness, which should be nourished in our own homes, are the foundation of humanity. They were moved by the words we used during "Care and Share" week celebration. The students donated old toys and clothes to the less fortunate.

The youngsters were taught that small acts of kindness, which they imbibe and apply, are education in and of themselves, and that this will help them grow into compassionate people. Finally, they were taught that when it comes to growing up, discipline is the most important of all. Humans have the ability to go above and beyond our capacities in order to achieve all in life that other creatures cannot. As a result, make clear goals and a clear path.

**Ms. B. Preethi Reddy**  
Principal - TCPS (Sr. Seeds)

## Tete - e - Tete with our Parent

**Ms. Manju Padmanabhan,**  
Parent of Kum. Anjali Jayesh - V-A1

As a parent, how do you feel about Anjali's achievement?

As a parent, I am both relaxed and proud as I watch my daughter put up her best effort to do the schoolwork assigned to her. The teacher's ongoing support is the constant key for this technique.

What is the role of school in achieving it?

The school has a highly positive attitude toward education and the tasks assigned to the students. The projects they are given encourage students to think outside of the box, which is greatly appreciated. Every two weeks, they are given the opportunity to participate in the star kid project, which encourages them to fulfil their goals.

Does the school give equal importance to extracurricular activities as much as academics?

Yes, each activity is given equal weight. This school provided my daughter with karate, skating, and dancing lessons, which she greatly loved.

## Voice of a Teacher

### ENCOURAGING UNIQUENESS

**Ms. Prathibha Bharathi. C**  
EVS Mentor

**'Every student can learn, just not on the same day, or the same way.'** –George Evans

There has recently been a lot of scientific proof that no one is born with a genius ability.

It all stems from the proper method of instruction.

Whether it's a new approach for operating a machine or a new concept to use in mathematics, the human mind processes and learns in the same way. The key to a healthy learning process is practising the proper way, in the right atmosphere, and encouraging children to ask questions, which every parent should understand and execute.

Breaking down complex difficulties into smaller chunks and practising them builds a bridge to more difficult topics. Apart from the setting, it is also crucial for young learners to keep the learning span entertaining and brief because youngsters have short attention spans and are easily distracted.

## Voice of a Student

### Our Humanity Comes to Its Fullest Bloom In Giving

When it comes to mankind, there are many different ways to look at it. But Humanity is – to me – the value of kindness and sympathy for other people. Using Mother Teresa as an example of a humanitarian, we can observe how she devoted her entire life to assisting the destitute and needy of a country with which she had only a passing acquaintance.

She saw the people she served as human beings who were also members of her fraternity. We celebrated "Share and Care" week at our school, and gave our unused toys and clothes to the poor and needy, inspired by Mother Teresa. We pledged ourselves that we would continue to perform these acts as part of our usual school routine since we believe that "Our Humanity blooms to its fullest potential."

### “School Innovative Challenge 2021-2022”

Our students in Grades 6 and 7 participated in the "Telangana School Innovation Challenge 2021" and successfully completed their online course on "Managing Design Thinking for Innovation." Learners worked in groups led by the Group leaders Nityusha/ Sachika/ Juhi Sahasra of Grade VII. They have successfully submitted their idea and were awarded certificates under the guidance of Ms. Sujatha.

## Idea Bank

If we add a miniature oxygen concentrator below the oxygen cylinder, we can then add a tube that connects the oxygen concentrator and the oxygen cylinder. Then we add a sensor that beeps when the oxygen cylinder has half oxygen and when it has full oxygen. If it has half, we have a button in the suit that can start the concentrator. That re-fills the cylinder.

V-A2**

If you're in a forest or a distant location and your phone's battery is running low, you may charge it with a lemon. All you'll need is a lemon and a charger to get started. Cut the lemon in half and insert the charger into one of the halves. Lemon juice works as an electrolytic solution, causing this to happen. If you're going hiking, lemons should be on your list.

### FROM THE DESK OF THE CENTER HEAD

**Do not be afraid of growing slowly; be afraid only of standing still.**

I feel honored to be part of an educational institution where everyone is a learner and every day is an opportunity to learn, discover, and progress. While COVID ravaged the world, it also highlighted the need for hope, compassion, courage, humanity, and resilience like never before.

Let's instill these values of humanity and respect and make the world a better place to live. Seeing the cheerful faces of our seedlings every day at school is so energizing. Besides all of the impressive academic work happening inside the classroom, the month of December has seen children participate actively in Christmas celebrations and in special assemblies where they spoke about energy conservation and National Navy Day. Seedlings, you rock!

**Ms. Vani Lanka,  
Center Head - SPS (Mars)**

### Tete - e - Tete with our Parent

**Mr. Raghavendra Kalyan Sunkara,  
Parent of Mast. Leekshana Sunkara  
in conversation with Center Head.**

Are you happy with the quality of education your child receives at school?

Yes, I am extremely happy. My ward has made tremendous progress in all academic areas. She is able to answer the questions from the lessons, do the homework independently and explain what she has learned.

What teaching methods used at the school do you find most effective?

I find the classrooms very interactive and student-centric. The usage of various online tools as well as hands-on activities to explain a topic is quite commendable. I deeply appreciate the commitment and patience of all the teachers.

### Voice of a Teacher

#### MAKE A MEMORY BANK

**Ms. G. Sirisha,  
English Mentor**

Childhood is a treasure trove of wonderful recollections and life's most memorable days.

It's a lovely feeling for parents to see their children enjoying and appreciating the little things in life.

There are many happy times mixed in with some difficulties. Maintain a line of communication with your child. Talk with your child and pay attention to what he or she has to say. Encourage children to inquire about things.

You'll have a better chance of succeeding as a parent and understanding your child's emotional wellbeing if you spend quality time and interact with them.

### Tick Tock

Tick tock! Tick tock! Tick tock!

I am a clock

Round in Shape, sometimes square in shape too .

The clock has two hands .

The hands on the clock go Round and round to tell us the time.

The short hand on the clock to tell us the hours , the long hand on the clock -to tell us the minutes.

I never stop ,day or night.

Tick tock! Tick tock! Tick tock!

I am a clock. I am used everywhere.

### “ FIELD TRIP ”

To learn more about Community helpers, our primary students were taken on a field trip to a nearby post office. They were shown postal letters, various stamps, inland letters, and envelopes by the post master.

The usage of all the above was then explained by their respective class teachers. The students also understood how letters are collected and delivered to their destinations. It was a valuable lesson for our seedlings. They were amazed at the various stamps that were on display at the post office

### FROM THE DESK OF THE CENTER HEAD

Humanity is the purest form of human service. Caring for and assisting others whenever and wherever feasible is what it means. It is critical that we instill in our children the habit of demonstrating empathy and assisting people in need from an early age. We teach children how to communicate, walk, ride a bicycle, learn, and work. We teach about other cultures and traditions, but why don't we teach about the significance of humanity? Here are some practical ideas for instilling humanity in children:

1. Give them a plant or a pet to care for, and encourage them to do so.
2. Request that they assist you with housework
3. Serve as a role model

**"How can we make a difference in the world?" One random act of kindness at a time."** – Morgan Freeman

in conversation with Hindi Mentor.**

Did you notice any change in your child after he started attending physical classes?

Within a month of starting physical school, we noticed a great change in my child. The lessons and tasks provided by the teachers are quite beneficial for my child. He has developed great discipline and leadership qualities in him. I'm very satisfied with the progress of my child.

Do you have any suggestions or recommendations for us?

We are very much happy for the efforts you are putting forth for our child's holistic development, Thanks to all the mentors.

**ఆహారంపట్ల తల్లిదండ్రుల యొక్క బాధ్యత:-**

1. మంచి ఆహారం, 2. చెడు ఆహారం, 3. అలవాట్లు

1. మంచి ఆహారం:-

పిల్లలకు మంచి ఆహారం తినిపించడం తల్లిదండ్రుల యొక్క ముఖ్య బాధ్యత. శాఖాహారం ఎంతో మేలు చేస్తుంది. అలాగే బాదంపప్పు, జీడిపప్పు, ఎండుద్రాక్షలాంటి మంచి ఆహారం ఇవ్వడంవల్ల పిల్లల జ్ఞాపకశక్తి, చురుకుదనం మెరుగుపడుతుంది. వారానికి ఒకసారి చిరుధాన్యాలు ఇవ్వడం చాలా మంచిది.

2. చెడు ఆహారం:-

అంటే బయట చేసిన ఆహారపదార్థాలు. ఇవి తినడంవల్ల పిల్లలకు మేలు జరగడంకంటే ఎక్కువ హాని జరుగుతుందని మన అందరికీ తెలుసు.

3. అలవాట్లు:-

నిజానికి తల్లిదండ్రులు చిన్నప్పటినుండి పిల్లలకు ఏ ఆహారం అలవాటుచేస్తే అదే ఆహారానికి అలవాటు పడతారు. బయట తినాలని పిల్లలకు తెలియదు. అది తల్లిదండ్రులుగా మనమే వాళ్ళకు అలవాటు చేస్తాం. దానికి పిల్లలు అలవాటుపడతారు. అప్పటినుండి పిల్లలు బయట ఆహారం తినడానికి ఎక్కువ ఇష్టపడతారు. కాబట్టి పిల్లలకు మంచి ఆహారపు అలవాట్లు నేర్పించడం తల్లిదండ్రులపై ఆధారపడి ఉంటుంది. మీ అందరికీ తెలుసు మన పాఠశాల పేరేంటో "సీడ్స్ యురేనస్". సీడ్స్... అంటే విత్తనాలు. అలాంటి స్వచ్ఛమైన విత్తనాలతో పండించిన పంటల ఆహారాన్ని మనము పిల్లలకు అలవాటుచేద్దాం.

## Voice of a Student

### SAVE ENERGY SAVE THE WORLD

National Energy Conservation Day is observed on December 14th every year. Conserving energy is just one way we can help the environment and minimize the use of our energy resources. Turning off the lights when we leave the room, using LED lights unplugging appliances when they're not in use and walking instead of driving for short distances are a few changes which we have to adapt to for energy conservation in our daily life.
